Swachhata Pakhwada - 2024

As per the guidelines directed by CBSE, our students involved in Swachhata Pakhwada through promoting water conservation, personal hygiene, rally, painting, and slogan writing, fostering cleanliness and environmental responsibility.

Dear Principal & Teachers,

At the outset thanks for providing this opportunity to give our feedback. I am mother of Srinidi PV studying in 6th Standard. She is happy and interested in going to school without any slight hesitation. This is because you all have made the environment so conducive. As teachers shape the kids future, you all have provided time in identifying the individual capabilities and nurture it. My younger daughter Tejasri is studying Kindergarten and we have seen her picking up well in academics, extra curricular activities and she is also keen to go to school. Once again thanks to each & every teachers, non-teaching staffs who dedicate their career in building the future.

Mrs Devi. G

Creating Pathways To Success

Self-esteem is how we value and perceive ourselves, reflecting our sense of self-worth and abilities. It develops throughout life, with the first five years being crucial. During this time, a child's self-esteem grows through care, responsibility, and feeling safe, loved, and praised. Positive feedback from parents and teachers is essential.

Parents and teachers play a key role in fostering confidence by using encouraging language and creating a supportive environment. Without early responsibilities or when compared to others, children may doubt their abilities, leading to lower self-esteem and reluctance to try new things.

As a responsible citizen we must ensure that our child should get out of shyness and must empower them to thrive in the competitive world.

My Passion For Teaching

I love working with young people and wish to make a positive influence on people's lives. I enjoy the freedom and creativity that education provides. I enjoy studying and being in a learning environment. Teaching is a job with a lot of variation and challenges. I firmly believe that every student is unique and has some potential that can be evolved and improved with efforts of the teachers. Teaching is my passion. I teach because, for me, it's the most effective and most enjoyable way to change the world.

Magic of Science

Class 4 showcased the beauty of science through experiments and facts.

Digital Transformation

The Charles Babbage Club showcased translation work from English to Tamil, computer usage quiz, top 10 study apps, and a PPT.

Birthday Vibes

K. Prithika
Grade 10 A

ஆசான் என்னும் அருந்துணை

ஏடு ஒன்று எடுத்தேன்....
உன்னை பற்றி கவி ஒன்று எழுதிட.....
ஏடுடுத்த பின் தான் அறிந்தேன்
நீயே ஒரு கவிதை என்று!
இருந்தும் என் மனம் கவி எழுது என்றது.
நீயோ எனது கதிரவன்!
நானோ உன்னிடம் இருந்து அறிவைப் பெற்று ஒளிரும் சந்திரன்!
நீயே என் படகின் துடுப்பாகிராய்!
எப்படி துடுப்பு இன்றி
படகு முன் செல்லாதோ.... அதேபோல நீ இன்றி
என் வாழ்வில் எப்படி முன் செல்வது?
என் வாழ்வில் நான் உயரப் பறக்க
நீயே என் சிறகுகள் ஆகிராய்!
நீ இன்றி என் எதிர்காலம் இல்லை....
உன்னைப் பற்றி இன்னும் கவிதை எழுது என்கிறது என் மனம்!
ஆனால் உன்னைப் பற்றிக் கவி எழுத தான்
இத்தாளில் இடம் இல்லை....

Beyond The Classroom

Cultivating Curiosity

Grade 2 students visited Green Meadow Farm in Lallikuppam, learning about its history and diverse areas, deepening their understanding of agriculture and its connection to nature.

Connecting With Our Roots
